- Made in Strong Rigid Fibreglass • Totally Maintenance Free
- Available in White, Brown, Oak or Rosewood • Fully Guaranteed for 10 Years

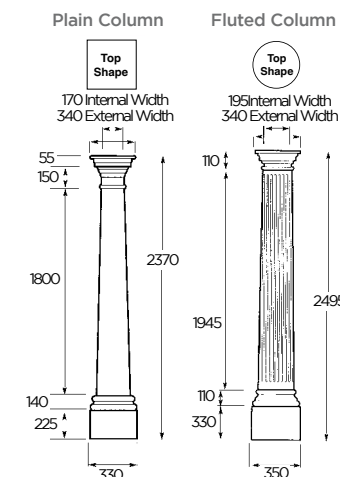

Columns

Transform any entrance with our round or half round columns.

These beautifully moulded columns are lightweight and easy to handle. They can be used in many building projects, including porches, and porticos.

Further strength for load-bearing properties can be added by filling the centre of the columns with steel rods and concrete, creating a real-feel concrete column that will retain its good looks with no maintenance. Columns can be used with our canopies, or as part of your own design.

Both columns are also available in Half-Round profile.

- Beautiful Moulded Design • Fast Easy Installation
- Made in Strong Rigid Fibreglass • Delivery Approx' 7-14 Days
- Totally Maintenance Free • Fully Guaranteed

Many households have two or even three cars. An average size garage usually has space for only one car to be protected. What happens to mum's, your daughter's or your son's car? They are left outside, open to all the elements.

Concept Canopy will make such a difference to your home and the way you live. Whether you choose a Carport, Covered Walkway, Children's Play Area or a stylish Patio Canopy. The construction is of tough and reliable glass reinforced plastic, the building material of the future. Being self-coloured your Concept Canopy needs no painting or maintenance ever. (Supplied with all fixings needed.)

Your canopy will keep its good looks for years and years without continual upkeep. The tough translucent roof panels allow natural daylight through, so if your canopy is above your kitchen window, patio or living room, adequate daylight still enters your home.

Adds value to your property... The Concept Canopy has undergone rigorous testing procedures in simulated and actual installations over many years. Monitoring of test models is continuous and no component deterioration has been detected. Concept Canopy requires no ground preparation and in most cases planning permission is not necessary. It immediately becomes a welcome addition to any house or bungalow.

Installation... The canopy installation can be carried out by trained installers in a few hours with no fuss and no mess. All you need to maintain the elegant looks is an occasional wipe clean. (Supplied with all fixings). Concept Canopy is designed on a modular basis which means that you can increase the area of the cover at any time and there are no support pillars needed, giving maximum protection for all the vehicles you are ever likely to own.

Sizes available in 1600mm increments.

- Rigid Glass Reinforced Plastic • Withstands Snow Loads of 1690kg • Totally Maintenance Free
- Completely Self-Supporting • Withstands Wind Speeds of 146mph • Available Within 7-14 Days

Flexi-Roof Modules

Ideal for porches, extensions & canopies.

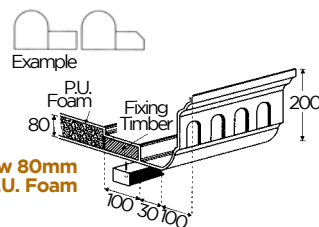

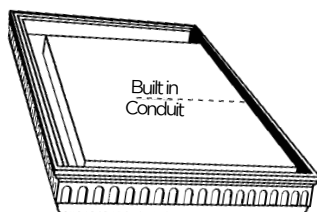

Constructed from glass reinforced plastic. Each roof is made to your exact requirements. Max size to the outside of the fixing timber 6000 x 3100mm.

Cut-outs can be built in, as well as blank ends to allow the module to fit against side walls.

This product is also compatible with our garden room roofs, allowing you to create many shapes of garden room.

Supplied to your external frame sizes, we work out the overhang to suit your frame. You simply lift the roof on top of the frames and screw up into the fixing timber around the outer frame layout.

Even lighting is simple to install due to the built-in conduit. Fitting can be completed in minutes, creating a beautiful, strong, lightweight porch. Fully insulated to a 0.2 U Value.

- Available in Various Colours: • 3 Shades of White, Chocolate Brown, Light Oak and Rosewood
- Split colours available, i.e. Brown Outer with White Ceiling, etc. • Normal delivery approx 7-14 days.

The ultimate solution for a luxurious home extension or conservatory roof.

The roof has been developed to reduce the installation time on site, thereby reducing the overall costs involved. Each section can be manufactured to a maximum size of 6m x 3m external frame size in one piece. Larger roofs can be made in sections and bolted together on site.

Choose your design, fascia style and finish from our durable GRP range, a choice of any RAL colour can be manufactured to suit your needs.

The roof will be fully insulated throughout, structural timber inserts are installed along with built-in lighting duct where required.

Complete with a built-in control system, the roof is maintenance free and covered by our 10 year manufacturer warranty.
